## ABOUT DR. DESIGN

**DR.DESIGN PRIVATE LIMITED** is a **MULTINATIONAL COMPANY** headquartered in **New Delhi**, India. It's registered offices are in **India, USA** and **UAE**. Currently we are serving clients all over world and has more than 700 employees in India and abroad. It's registration number is **U45202UR2020PTC011284**, **GSTIN : 05AAHCD8950GIZJ**.

In India our presences are at 1. Srinagar (Jammu and Kashmir), 2. Chandigarh (Punjab), 3. Jaipur (Rajasthan), 4. Mumbai (Maharashtra), 5. Indore (Madhya Pradesh), 6. Ranchi (Jharkhand), 7. Ahmedabad (Gujarat), 8. Patna (Bihar), 9. Raipur (Chhattisgarh), 10. Kanpur (U.P), 11. Yamunanagar (Haryana), 12. Dehradun (Uttarakhand), 13. Kolkata (West Bengal), 14. Bhubaneswar (Odisha), 15. Hyderabad (Telangana), 16. Amravati (Andhra Pradesh), 17. Bengaluru (Karnataka) and 18. Chennai (Tamil Nadu).

**DR.DESIGN PRIVATE LIMITED** is a company registered under Government Of India and honourable prime minister Narendra Modi ji' **START UP INDIA mission** having **STARTUP INDIA** certificate number **DIPP65517**. It was recognised as a part of **STARTUP INDIA** on 20-8-2020. It was also recognised as a **MSME** on 27-08-2020 with **UDYAM** registration number : **UDYAM-UK-05-0001216**.

We are pioneer in advanced mapping, survey and geospatial services. With the team of 700+ professionals and rich experience, we deliver expertise services in Geographical Information System (GIS), Geospatial Engineering domain, Hydrographic Survey and Aerial Survey (**specialized in survey by drone**).

We have a unique blend of understanding the emerging consumer applications around mapping technology as well as the capability on the enterprise side to offer solutions revolving around state-of-the-art remote sensing; LiDAR, aerial survey, photogrammetry and ICT based e-governance solutions. We are one of the largest LiDAR acquisition company and have expertise in processing capabilities in the world. We have successfully delivered some of the world's most challenging projects.

## ABOUT DR. DESIGN

### INNOVATION OF DR. DESIGN PRIVATE LIMITED

Our approach is simple yet innovative. Simple as we breakdown the entire work processes in different segments and the criteria for creating these segments is not rigid but it will be done on the case to case basis. Innovative as we in DR.DESIGN, believe that when expertise is blended with great planning & topped with time & efficient delivery mechanism, the expected output will beat the existing market products & service in terms of cost, quality & accuracy, by at-least a mile. As we have been doing splitting of work into segments this makes our job more efficient, time bound and systematic. We have our own pool of experts in these segments and we are in a process of creating the platform based on logical algorithms to split the works into micro-segments so that smallest pockets of the work can be executed with same efficiency & quality. This may involve workforce, skilled or unskilled, from across various firms or free lancers so that the work will be executed efficiently while maintaining the quality and the delivery schedule of various milestones of the projects.

### OUR LEADERSHIP

**DR. DESIGN** a team of experts who are **ALUMNUS** of premier institutes like **IITs, NITs** etc.

### SERVICES BEING OFFERED:

- 1) To provide Geo-spatial solutions in various fields like monitoring of any location based service, providing ground controls including spot heights for any green field project, creation of base maps, topographic maps, GIS ready maps, etc.
- 2) To provide layout plans for buildings and establishments with construction design parameters along with BBSs, Material Quantities, man power requirement, estimated completion time etc.
- 3) To provide project consultancy, either for the entire project or for any part of it, in geospatial domain and structural engineering domain.
- 4) To provide training in construction management and geospatial service management. For e.g preparing PIPs, RFPs, BOQs, Work Force management, budgeting, instrument handling, technical survey training, on-site field exposure, etc.
- 5) To provide GIS based services which include storing and editing spatial and non spatial data with proper well defined data model structure, analyze spatial information output and visually sharing the results of these operations by presenting them as maps for particular project.

## ABOUT DR. DESIGN

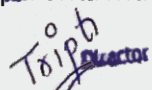

### EXPERTISE IN DIGITAL TOOLS/PLATFORMS

- 1) To analyze and edit spatial information, in addition to composing and exporting graphical maps, we have got expertise in qgis, arcgis, google earth and geo media.
- 2) To create blueprints and layouts for buildings, bridges, culverts on any other engineering structures, to propose layouts for pipeline laying we have got expertise in AutoCAD software.
- 3) To efficiently manage any project considering critical activities at each stage we have got expertise in Microsoft project management software.
